

QGIS Application - Bug report #14565

Creating empty polygon causes a minidump error.

2016-03-24 07:27 AM - A. Egberts

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	Geometry	
Affected QGIS version:	2.14.0	Regression?: No
Operating System:	windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 22538
Description		
<p>In Qgis 2.14.0 (Essen) When I add a polygon in a shape without putting a character in the table, I get a MINIDUMP error and Qgis closes!</p> <p>In 2.12 Lyon), in the same file, I can do this without any problem.</p> <p>Also when I add one character in the table (in version 2.14), it is no problem, only when the polygon is empty?</p>		

History

#1 - 2016-03-26 02:08 AM - Jürgen Fischer

- Subject changed from *Qgis 2.14 Essen* -> *Creating empty polygon causes a minidump error.* to *Creating empty polygon causes a minidump error.*

I just tried to reproduce in the same file, the same error..... and now... it works fine???

So this problem is solved!!

(but still don't know what I have changed)

CASE CAN BE CLOSED!!

Thank you all for helping!
