Description It would be very useful, the NTv2 transformation Grid (BETA2007.gsb) for the transformation between DHDN and integrate them into the QGIS installation ETRS89. In the SRS.db there is already a record. However, the grid is not yet stored in the QGIS installation on ./share/proj. BETA2007.gsb may under http://crs.bkg.bund.de/crseu/crs/dscrtrans/BeTA/de_dhdn2etrs_beta.php downloaded. Best wishes, Claas
