

QGIS Application - Bug report #14663

SVG point-marker in print composer with blank frame

2016-04-12 04:36 AM - Burghardt Scholle

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Symbology	
Affected QGIS version:	2.14.1	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #: 22627
Description		
<p>I have upgraded from 2.8 / 2.12 to 2.14.1. In print composer it seems that each SVG point-marker get a blank frame (see attached screenshots). Because of that the spacing of the markers in the legend are very large. The symbols get a kind of buffer and the legend does not fit in the space provided.</p> <p>The SVG's were created with Inkscape 0.91 (see attached SVG's).</p> <p>System: Windows 7.1 (64bit), Ubuntu 14.04</p>

Are your symbol sizes in map units?

#2 - 2016-04-12 04:42 AM - Burghardt Scholle

Yes, my symbol sizes in map units.
