Description		
<p>Although all icons in Attribute table dialog have pop up information about their purpose, some of them have shortcuts (e.g. Invert selection->Ctrl+S) and other don't (e.g. Remove selection) and some of those having shortcut show it in the pop up information (e.g. Copy selected rows to clipboard (Ctrl+C)) and other don't.</p> <p>I think they all should show the same behavior.</p>

Submitted patch to fix ticket. I have chosen the best shortcuts I've found, buy may be there are others which are better.
