QGIS Application - Bug report #147
Labels not displayed for GRASS vector layers

2006-06-17 09:21 PM - Gary Sherman

Status:	Closed			
Priority:	Low			
Assignee:	Redmine Admin			
Category:	GRASS			
Affected QGIS version:		**Regression?:**	No	
Operating System:	Debian	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed	
Crashes QGIS or corrupts data:		**Copied to github as #:**	10206	

Description

When turning on labels for GRASS vector layers, the default word "Label" is displayed instead of the value of the selected label field. The attributes are present and displayed when using the Identify tool.

Mac OSX.4.6 --

I am having very similar problem, except with an imported .shp/.dbf layer.

Attributes are present. -- Mars

#2 - 2006-08-10 04:47 AM - anonymous -

- Resolution set to fixed

- Status changed from Open to Closed

I cannot reproduce this. You can reopen the ticket if

you can still reproduce the problem. In that case please

specify better if it happens with all data sets or just on

some special conditions.
