

QGIS Application - Bug report #14707

Atlas legend not resizing correctly

2016-04-19 09:10 PM - Kate Callan

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Map Legend	
Affected QGIS version:	2.14.0	Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 22668
Description I have a filtered legend in an atlas, anchored at the bottom right. On export the legend box is output at the same maximum size on all maps, even when less legend items are shown, leaving a gap at the bottom of the box. When scrolling between atlas maps in the Composer, the legend will increase in size on the first appropriate occasion, but then fails to decrease again in subsequent maps where less legend items are shown.

Revision 4f31ab65 - 2016-07-13 09:35 AM - Nyal Dawson

[composer] Fix setting legend content by map not resizing legend

When a legend was set to filter content by map, it wasn't consistently being resized to fit the legend contents. This caused issues for atlas exports where legends could grow but never shrink.
