

## QGIS Application - Bug report #14742

### QGIS 32 bits doesn't save default attribute id field (integer64) values

2016-04-29 01:04 AM - Christophe Damour

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Attribute table	
<b>Affected QGIS version:</b>	2.8.8	<b>Regression?:</b> No
<b>Operating System:</b>	Windows	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> end of life
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 22700
<b>Description</b>  Default id field type for a newly created shape file is Integer64 on QGIS 32 bits. Because of this, QGIS doesn't save values that are entered in that field. Same problem for a newly created field with length of 10.
