

## QGIS Application - Bug report #14769

### Filtering in QGIS browser only returns result in already opened folders or databases

2016-05-05 03:05 AM - Harrissou Santanna

<b>Status:</b>	Open	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Browser	
<b>Affected QGIS version:</b>	3.0.0	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 22726
<b>Description</b>		
<p>Open a new instance of QGIS and open the browser panel if not already done</p> <p>Click on the filter button and make a search for a file/table/folder you know that exists. QGIS will only returns drives/DB that have such "search text" in their name.</p> <p>Let's clear the search text and now extend one of the listed drives/DB. If you make a new search, content of this drive is now taken into account, but not its subfolders.</p> <p>....and so on...</p> <p>If I need to open the right folder to be able to have my file returned by the search, better open it directly. This makes the search tool useless so I set the priority level at blocker.</p>		

#### History

##### #1 - 2016-06-08 04:52 AM - Nyall Dawson

- Priority changed from Severe/Regression to Normal

Annoying, but not a blocker

##### #2 - 2017-05-01 01:05 AM - Giovanni Manghi

- Easy fix? set to No

- Regression? set to No

##### #3 - 2018-02-27 07:33 PM - Harrissou Santanna

- Affected QGIS version changed from 2.14.2 to 3.0.0

- Description updated

##### #4 - 2019-03-09 03:12 PM - Giovanni Manghi

- Status changed from Open to Closed

- Resolution set to end of life

End of life notice: QGIS 2.18 LTR
