

QGIS Application - Bug report #14786

'Reshape Features'/'Split Features' inconsistent behavior

2016-05-07 10:59 AM - R. R.

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Digitising	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: end of life
Crashes QGIS or corrupts data:	No	Copied to github as #: 22743
Description		
<p>The 'Reshape Features' tool works as expected when features are reshaped from vertex to vertex but may fail when features are reshaped from vertex to segment. Reshaping features from segment to segment fails every time. The 'Split Features' tool shows a similar behavior but splitting a feature from segment to segment may work.</p>		

History

#1 - 2016-05-22 01:32 PM - Jürgen Fischer

- Category set to Digitising

#2 - 2017-05-01 01:05 AM - Giovanni Manghi

- Easy fix? set to No

- Regression? set to No

#3 - 2017-08-08 02:43 PM - Andreas Wicht

The Workaround here is to start and end digitizing the line inside of the polygon you want to reshape. Then new vertices are being generated where the blade intersects the boundary of the polygon.

#4 - 2019-03-09 04:10 PM - Giovanni Manghi

- Resolution set to end of life

- Status changed from Open to Closed

End of life notice: QGIS 2.18 LTR
