

QGIS Application - Bug report #14810

Uncheck 'include Z dimension' in 'save vector layer as' doesn't work

2016-05-13 02:51 AM - Nicolas Boisteault

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Unknown	
Affected QGIS version:	2.14.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed/implemented
Crashes QGIS or corrupts data:		Copied to github as #: 22766
Description		
<ul style="list-style-type: none"><li>- load a 2.5D vector layer</li><li>- right click on it -&gt; Save as</li><li>- select geometry type</li><li>- uncheck 'include z dimension'</li><li>- Click OK</li></ul> <p>The resulting layer still has z dimension.</p> <p>You can test with attached file.</p>		

History

#1 - 2016-06-24 02:30 AM - Alexander Bruy

- Resolution set to fixed/implemented
- Status changed from Open to Closed

Fixed in master and 2.14.3. Please reopen if necessary

#2 - 2016-06-24 02:46 AM - Nicolas Boisteault

This issue still occurs in 2.14.3 64 bits on windows 7 64 bits.  
Did you mean it is fixed in master and so it will fixed in 2.14.4?

#3 - 2016-06-24 02:52 AM - Alexander Bruy

I think yes. I can't reproduce it with lastest master and 2.14.3 (89a1f5b).  
  
If possible, please test with nightly builds.
