

QGIS Application - Bug report #14816

no style backward compatibility

2016-05-13 01:25 PM - Andre Jesus

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Project Loading/Saving	
Affected QGIS version:	2.8.9	Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: end of life
Crashes QGIS or corrupts data:	No	Copied to github as #: 22771
Description		
2.8.7 and prior versions		
1. Create a style for a vector layer		
2. Set style as default		
2.8.9 onward		
1. copy qgis.qmldb file (2.8.7 -) to 2.8.9+		
2. Open same vector layer, no style has been applied		
=====		
2.8.7 and prior versions		
1. Create a style for a vector layer		
2. Save QGIS project		
2.8.9 onward		
1. Open QGIS project (style loaded fine)		
2. Set style as default		
3. Reopen QGIS: style not loaded		
=====		
So I can only set default styles in QGIS 2.8.9 if I create them in the current version		
2.8.9 onward		
1. Create a style for a vector layer		
2. Set style as default		
3. Reopen QGIS and load the vector		
4. Default style loaded		
=====		
I have to say, recreate styles for 150 layers will be a pain....		

History

#1 - 2016-05-25 07:11 AM - Andre Jesus

copying a QMLDB file made in a 2.14.3 QGIS to another 2.14.3 QGIS also does not work

#2 - 2016-06-14 10:47 PM - Jürgen Fischer

- *Subject changed from no style backward compatibly to no style backward compatibility*

#3 - 2016-06-14 10:48 PM - Jürgen Fischer

- *Category set to Project Loading/Saving*

#4 - 2017-05-01 01:05 AM - Giovanni Manghi

- *Regression? set to No*

- *Easy fix? set to No*

#5 - 2019-03-09 03:12 PM - Giovanni Manghi

- *Resolution set to end of life*

- *Status changed from Open to Closed*

End of life notice: QGIS 2.18 LTR
