Crashes QGIS or corrupts data:		**Copied to github as #:**	22815	

Description

Steps to reproduce:

1. open style dock. button on layer panel is shown depressed
2. close style dock via the 'x' button on the dock
3. button on layer panel is still shown depressed

Associated revisions

Revision cb4dacfe - 2016-06-09 03:01 AM - Nyall Dawson

Fix style dock button not synced to dock state (fix #14862)

Add a new class QgsDockWidget which has finer control over setting
and retrieving the dock visibility, to account for dock widgets
which are open but hidden by other docks
