QGIS Application - Feature request #14904
Being able to rename Preset visibility

2016-05-26 08:42 AM - Harrissou Santanna

Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	22857

Description

One can create, replace or delete a preset but there's no way to give it another name if the current doesn't really fit its content. The only way is to delete the existing and recreate a new one. Not really optimal if the preset is used in map composer settings.
