QGIS Application - Feature request #14916
Plugin manager: Show trust

2016-05-27 11:01 PM - Paolo Cavallini

Status:	Closed		
Priority:	Normal		
Assignee:	Borys Jurgiel		
Category:	Plugin Manager		
Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	22867

Description
Users should see clearly which plugins are trusted (e.g. with a bold green tick). Avoid any pejorative term for others (e.g. "Untrusted")

[pluginmanager] show trusted plugins (fix #14916)

History

#1 - 2016-05-27 11:20 PM - Alexander Bruy

We need to have support for this in the Plugins site, e.g. by adding another (probably accessible only for admins) tag to plugins XML file. Once we will have this, we can add support in Plugin Manager

#2 - 2016-05-28 04:11 AM - Alessandro Pasotti

<trusted> attribute is now in the XML. Value can be True or False

#3 - 2016-05-30 04:16 AM - Alexander Bruy

Seems these changes case some troubles with pugin site, so for now we use older version without "trusted" attribute

#4 - 2016-06-01 03:47 AM - Alexander Bruy

- Status changed from Open to Closed

Fixed in changeset commit:"6e1302047c090fb4a90b70bd898b29c97f6ca54b".

#5 - 2016-07-24 04:47 AM - Andre Joost

I suggest to backport the trusted flag to the QGIS 2.14.4 LTR version as well.

Furthermore, it should be included on https://plugins.qgis.org/plugins/ as well, possibly with a help icon that explains what the trusted flag is about. Maybe "Trusted Author" is more meaningful to end users. See http://gis.stackexchange.com/questions/203116/what-does-the-trusted-flag-mean-for-qgis-plugins

for a discussion about that.
