Affected QGIS version:	2.14.3		**Regression?:**	No
Operating System:	Windows		**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	fixed/implemented
Crashes QGIS or corrupts data:			**Copied to github as #:**	22878

Description

When I try to sort the columns in the attribute table (by clicking on the column name), with commit:7d7467f (qgis-rel-dev 2.14.3-7 OSGeo4W 64 bits), nothing happens, regardless of the field type.

Doing the same with commit:c260a77 (qgis 2.14.3-1) or commit:78bcd4b (qgis-dev 2.15.0-74), the sorting works fine.

Tested with postgis and shapefiles datasources.

Revision 671850f6 - 2016-06-13 04:40 PM - Even Rouault

Fix sorting in attribute table

Regression introduced with 3ec3daeb14a047c3f4efdd8646a51b33661c28ce (2.14.3) where
QgsAttributeTableModel::data(index, SortRole) returned an empty variant.

Fixes #14927

History

#1 - 2016-06-09 02:52 AM - Luca Lanteri

Same problem using 2.14.3-Essen.
It can be considered a regression ?

#2 - 2016-06-13 07:42 AM - Even Rouault

- Status changed from Open to Closed

Fixed in changeset commit:"671850f66a580e5849c87a11d448b98dd7f338da".

#3 - 2016-06-13 07:44 AM - Even Rouault

- Resolution set to fixed/implemented

- Assignee set to Even Rouault
