Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	11553

Description

It is impossible to use ID to label features, which otherwise would be quite handy for just assigning numbers.

What data format?

Are you reffering to the IDs that QGIS applies internally to features, visible e.g. when you browse the data table content, or do you really have a column "ID" in your vector map and can't use it for labelling?

#2 - 2009-01-20 01:06 PM - Maxim Dubinin

sorry for being not descriptive enough
I'm working with shape-files and I was hoping to be able to use internal ID field for labeling, not to create another one.

- Target version changed from Version 1.7.0 to Version 1.7.4

#4 - 2012-04-15 10:13 AM - Giovanni Manghi

- Target version changed from Version 1.7.4 to Version 2.0.0

#5 - 2012-04-18 01:09 AM - Jürgen Fischer

- Pull Request or Patch supplied set to No
- Status changed from Open to Closed
- Assignee deleted (nobody -)

implemented in the new labeling. use the expression $id as label.
