

QGIS Application - Feature request #14941

Docking attribute table left/right

2016-06-01 05:29 AM - Jochen Schwarze

Status:	Closed	Resolution: Copied to github as #: 22892
Priority:	Normal	
Assignee:		
Category:	Unknown	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
I think in form view, where typically the attribute table is more high than wide it should be dockable left or right, when docking it at the top or bottom in form view most of the consumed screen space is wasted. dock_attribute_table_wasted.png
