

QGIS Application - Bug report #14976

repository files modified by "make check"

2016-06-07 09:38 AM - Sandro Santilli

Status:	Closed	
Priority:	Normal	
Assignee:	Sandro Santilli	
Category:	Tests Suite	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 22925
Description		
After running "make check", some testdata files are overridden: # Changes not staged for commit: # modified: python/plugins/processing/tests/testdata/custom/grass7/raster_4class.tif.aux.xml # modified: python/plugins/processing/tests/testdata/custom/grass7/raster_5class.tif.aux.xml # modified: python/plugins/processing/tests/testdata/custom/grass7/raster_6class.tif.aux.xml They should either not be in the repository or not be overridden. If the test implies modifying them, the tester should first copy them to temporary space and modify them there.
