

QGIS Application - Bug report #14979

style dock: switching to "(default)" style preset not working

2016-06-07 08:18 PM - Mathieu Pellerin - nIRV

Status:	Closed	
Priority:	High	
Assignee:	Nathan Woodrow	
Category:	Symbology	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 22928
Description		
Steps to reproduce:		
1. Create a new project, add a vector layer		
2. Open the style dock		
3. Go to the style tab, and click on the "Add" button		
4. Go to symbology tab, and change the style to differentiate it from "(default)"		
5. Go back to style tab, add another preset via the "Add" button, and change the symbology to make it unique		
6. Go back to style tab, switch between style presets, and notice the "(default)" preset fails to load
