QGIS Application - Bug report #14993
Processing not compatible with QGIS 2.8 or 2.10

2016-06-10 02:35 AM - Gavin Fleming

Status:	Rejected		
Priority:	Normal		
Assignee:	Victor Olaya		
Category:	Processing/Core		
Affected QGIS version:	2.8.9	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	invalid
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	22940

Description

I have multiple versions of QGIS built on my Ubuntu xenial machine (2.8 through master)

    This plugin is incompatible with this version of QGIS
    Plugin designed for QGIS 2.12 - 2.99

Surely all plugins (especially Processing) should not break with any version of 2?

History

#1 - 2016-06-10 03:32 AM - Alexander Bruy

- Resolution set to invalid

- OS version deleted (xenial)

- Operating System deleted (ubuntu)

- Status changed from Open to Rejected

Processing shipped with QGIS always compatible with this QGIS version. And now this is the only way to install it, as Processing not available from plugins repository anymore.
