

QGIS Application - Bug report #15139  
svg text rendering with large offset

2016-06-26 12:40 PM - Gavin Fleming

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Unknown	
<b>Affected QGIS version:</b>	2.14.3	<b>Regression?:</b> No
<b>Operating System:</b>	ubuntu	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> fixed/implemented
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 23078
<b>Description</b>		
<p>Several svg symbolisers are rendering incorrectly in QGIS. Text elements are offset to the right.</p> <p>Example: NorthArrow_07.svg that comes with QGIS has NEWS at each point of the compass. Yet when rendered in QGIS (in this case in Composer) it renders as per the attached image.</p> <p>The same thing is happening with svg symbols in the canvas.</p>		

History

#1 - 2016-06-26 05:42 PM - Nyal Dawson

- Resolution set to fixed/implemented
- Status changed from Open to Closed

Already fixed in master, and will be backported to 2.14

#2 - 2017-09-22 10:05 AM - Jürgen Fischer

- Category set to Unknown
