Crashes QGIS or corrupts data:	No	**Copied to github as #:**	23093

Description

Relates to previous bug report 14612

Dissolve.py line 129 fails as nElement is not initialised. If fixed it by initialising nElement to 0.

To reproduce create a model which does a dissolve with Dissolve all set to No and specifying a field name.

QGIS 2.14.3 Windows 64 bit
