History

#1 - 2016-06-28 03:17 AM - Tomas Cabezudo

- File error.rar added

#2 - 2016-06-28 04:33 AM - Tomas Cabezudo

- File before.JPG added

#3 - 2016-06-28 04:33 AM - Tomas Cabezudo

- File after.JPG added

#4 - 2016-07-06 03:37 AM - Martin Dobias

- Resolution set to invalid
- Status changed from Open to Closed

The results are actually correct - there are tiny gaps in your input data. It is possible to verify that either with Topology checker plugin or with Geometry checker (using option "check for gaps", make sure to use very small tolerance, e.g. 1e-16)
