

QGIS Application - Bug report #15163

Digitizing: how to abort "Simplify Feature" or "Rotate Feature" tool is not that obvious

2016-06-28 12:55 PM - Harrissou Santanna

Status:	Closed	
Priority:	Normal	
Assignee:	Martin Dobias	
Category:	Digitising	
Affected QGIS version:	2.14.3	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 23102
Description		
<p>When using "Simplify Feature" or "Rotate Feature" tool, user gets a dialog in which he can input some parameters to do the operation. However I do not find obvious how I can abort the operation: closing the dialog either with the red cross in the right-top corner or by hitting ESC does nothing, the tool remains active on the feature.</p> <p>One needs to click the tool itself in order to deactivate it.</p> <p>I think closing the dialog should also do the job.</p>
