

QGIS Application - Bug report #15212

Generated SLD - First generated graduated rule should to PropertyIsGreaterThanOrEqualTo not PropertyIsGreaterThan

2016-07-04 03:10 AM - Conor Woods

Status: Closed Priority: Normal Assignee: Category: Vectors Affected QGIS version: master Operating System: Windows 10 Pull Request or Patch supplied: Crashes QGIS or corrupts data:	Regression?: No Easy fix?: No Resolution: Copied to github as #: 23150
Description Hi, I am using the Vector export to SLD feature in QGis (2.15). I am using a graduated spectral range (quantile, equal count) to describe the layer. The layer contains 0 [zero] values which should be styled, however the SLD being generated includes, as its 1st rule, PropertyIsGreaterThan 0 (see rule below). This rule should be PropertyIsGreaterThanOrEqualTo. This means that any 0 value will be unstyled in the layer e.g. when the SLD is used in GeoServer. Kind regards, Conor <NamedLayer> <se:Name>short_temperature_tr_MMM_2011_2040_clim any</se:Name> <UserStyle> <se:Name>short_temperature_tr_MMM_2011_2040_clim any</se:Name> <se:FeatureTypeStyle> <se:Rule> <se:Name> 0.0000 - 4.0000 </se:Name> <se:Description> <se:Title> 0.0000 - 4.0000 </se:Title> </se:Description> <ogc:Filter xmlns:ogc="http://www.opengis.net/ogc"> <ogc:And> <ogc:PropertyIsGreaterThan> <ogc:PropertyName>DN</ogc:PropertyName> <ogc:Literal>0</ogc:Literal> </ogc:PropertyIsGreaterThanOrEqualTo> <ogc:PropertyIsLessThanOrEqualTo> <ogc:PropertyName>DN</ogc:PropertyName> <ogc:Literal>4</ogc:Literal> </ogc:PropertyIsLessThan> </ogc:And> </ogc:Filter> <se:PolygonSymbolizer> <se:Fill> <se:SvgParameter name="fill">#2b83ba</se:SvgParameter> </se:Fill>	

</se:PolygonSymbolizer>
</se:Rule>
