

QGIS Application - Bug report #15297

Crash when unquoted page name containing space is used in Atlas

2016-07-18 02:32 AM - Augustin Roche

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Affected QGIS version:	2.16.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 23231
Description		
<p>In the atlas generation thumbnail, you can select the field to use as page name. This field name is not quoted when you select it. If you activate the atlas preview and the unquoted field name contains space, QGIS crashes. If you enclose the field name in quotes, the preview works fine.</p> <p>Tested on Windows 7, with QGIS 2.16.</p>
