

QGIS Application - Bug report #15308

Switching to Singleband gray does not fill Min/Max

2016-07-19 12:08 PM - Johannes Kroeger

Status:	Feedback	
Priority:	Normal	
Assignee:		
Category:	Unknown	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 23240
Description		
If you use a raster image and switch to "Singleband gray" in the Layer Styling panel it will not automatically load the Min/Max. If you do the same in the Style properties dialog you automatically get "0" for both (which is an error). The pseudocolor options automatically load values for me, please do the same for gray. I would also suggest automatically applying "Stretch to MinMax" Contrast enhancement as user friendly default. I am on 7343b36, Linux.
