

QGIS Application - Feature request #15340

Checkbox for multithreading in gdalwarp

2016-07-25 11:19 AM - Evan Derickson

Status:	Closed	Resolution: Copied to github as #: 23272
Priority:	Normal	
Assignee:	Giovanni Manghi	
Category:	Processing/GDAL	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>The -multi flag can be used in gdalwarp to enable multithreaded reprojection. Though the user can type this flag into the Warp prompt themselves, a checkbox could be used to make this more convenient, and to make users aware of this feature. This checkbox should remember its state from the last time the tool was run and probably belongs in the "Advanced parameters" drawer.</p>

Revision 3450a9ff - 2017-04-29 02:39 PM - Alexander Bruy

[processing] add multithreading option to warp (fix #15340)

History

#1 - 2016-09-21 12:58 AM - Giovanni Manghi

- Assignee changed from Victor Olaya to Giovanni Manghi

It can be surely added, not sure about remembering the state.

#2 - 2017-04-29 05:30 AM - Alexander Bruy

- Status changed from Open to Closed

Fixed in changeset commit:"3450a9ff8910fa21d8734b09c3b23c43c759792f".
