

QGIS Application - Bug report #15379

The Layer properties -- transparency window should by default show immediate results

2016-08-03 01:20 AM - Dan Jacobson

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	GUI	
Affected QGIS version:	2.14.5	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 23309
Description		
<p>The Layer properties -- transparency window should by default show immediate results as we slide, or when we let go of the slider. Make seeing results only after clicking 'Apply' an option. Otherwise it is too old fashioned.</p>		

History

- Resolution set to fixed/implemented
- Status changed from Open to Closed
- Category set to GUI

This is more of a feature request.

Layer properties dock panel addresses this issue.

#2 - 2016-08-03 01:42 AM - Dan Jacobson

There is no "Layer properties dock panel" that I can find, even via Google.

If there is, then please put a reminder the user can see when he does it the old fashioned way, to check the new better way, with a click that takes him there.
