QGIS Application - Bug report #15540
Coordinate Status Bar wrong

2016-09-07 05:57 AM - Tobias Hurtienne

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Unknown		
Affected QGIS version:	2.14.5	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	invalid
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	23463

Description

In the status bar, the coordinates are only in WGS84 Sytem displayed... Thats new, but bad! Is there a opportunity to change it in QGIS?

History

As I and maybe others have no clue what your problem is, please consider using the qgis-user mailing list and try to explain it there a bit more detailed.

#2 - 2016-09-07 12:30 PM - Harrissou Santanna

Tobias, see Project Properties --> General --> Coordinate Display (

http://docs.qgis.org/testing/en/docs/user_manual/introduction/qgis_configuration.html#project-properties)

So, not sure this is a valid bug report...
