QGIS Application - Feature request #15736
Switch all labels on/off

2016-10-21 01:27 AM - Paolo Cavallini

Easy fix?:	No	**Copied to github as #:**	23658

Description

In complex projects, if labels are very cluttered, it is often useful to switch them all off. Currently this requires opening each layer, which is cumbersome. Adding a command to switch on/off all labels for all layers would be useful IMHO.
