QGIS Application - Bug report #15759
SVG Path(s) continuously increasing duplicates

2016-10-26 09:54 AM - Roy Roge

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Symbology			
Affected QGIS version:	2.14.8	**Regression?:**	No	
Operating System:	OSGeo4Win64	**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	fixed/implemented	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	23681	

Description

Every time the option pannel is open the original set
of svg paths is duplicated so that you easely end
with dozens of duplicated paths.

Step to reproduce:

Open QGIS - Settings - Options

select "System" tab and say you have two
SVG Paths in the list

close Options

reopen Settings Options: now you will have 4 SVG Paths
and this goes on and on every time you open Options(6, 8, 10 ...)

I Think this can lead to sluggish performance using any svg simbol.

Thanks, Roy.

History

#1 - 2017-03-06 02:43 PM - Giovanni Manghi

- Resolution set to fixed/implemented

- Priority changed from High to Normal

- Status changed from Open to Closed

Does not happen anymore in 2.18(.4).
