QGIS Application - Bug report #15760
can't save colours in colour picker

2016-10-26 10:02 AM - Donovan Cameron

Status:	Closed			
Priority:	Severe/Regression			
Assignee:	Nyall Dawson			
Category:	Symbology			
Affected QGIS version:	2.18.0	**Regression?:**	No	
Operating System		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:		**Copied to github as #:**	23682	

Description

I can't seem to get colours to save in the drag and drop boxes in colour chooser windows. Also tried to use the -> (right arrow button) to assign the colour to a box.

When I close the window, and go to choose a saved colour and apply it to something those saved colour boxes are empty.

I've attached pictures to illustrate it.

I tried to save the colour and click OK to close the properties window then open it again but no dice.

Associated revisions

Revision 520b94e4 - 2016-10-28 03:14 AM - Nyall Dawson

Fix can't save custom colours in color picker (fix #15760)

Also fixes a memory leak caused by color picker widget not
being deleted
