QGIS Application - Bug report #1577
Print composer hangs when exporting "complicated" map to raster

2009-03-16 02:34 PM - belg4mit -

Status:	Closed		
Priority:	Low		
Assignee:	nobody -		
Category:	Build/Install		
Affected QGIS version:		**Regression?:**	No
Operating System:	Windows	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	11637

Description

I am able to export a composed map to SVG, but the result is unusable.

Quick print's a bit better, but not ideal, so I tried to compose my map

and export to PNG and TIFF, and QGIS consistently hangs when the map

contains anything more than a handful of points.

History

#1 - 2009-03-24 06:04 PM - belg4mit -

- Resolution set to fixed

- Status changed from Open to Closed

Seems to work fine now in 1.0.1.
