

QGIS Application - Feature request #15776

Saving Edit Widget settings for Fields with Spatialite database

2016-10-28 06:05 AM - Saber Razmjooei

Status:	Closed	Resolution: Copied to github as #: 23697
Priority:	Normal	
Assignee:		
Category:	Unknown	
Pull Request or Patch supplied:	Yes	
Easy fix?:	No	
Description		
<p>It will be good to save Edit Widget settings for Fields within the style setting for Spatial database. Currently, the only method to save the setting is to store it within the Project file. But this is tricky when you want to pass the files around.</p>
