Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	23840	

Description

With 2to3 fix_signal I've got the following code changes:

- QObject.connect(self.downloader, SIGNAL("replyFinished(QString, int, int)"), self.networkReplyFinished)
+ self.downloader.replyFinished.connect(self.networkReplyFinished)

But when I run plugin I get an error:

    self.downloader.replyFinished.connect(self.networkReplyFinished)
    AttributeError: 'function' object has no attribute 'connect'

Maybe I have to add some modifications manually?
