

QGIS Application - Feature request #15929

"save to" full layer recorded in order, but selection of features not in same order ?

Easy fix?:	No	
Description		
Qgis desktop (Linux Qgis 2.18.1)		
I noticed that when I "save to" a full layer to a file, all features are save in the same order than original, but when save only a selection of features the order is different . Will be possible saving in same order when is a selection of features ? Thanks.
