QGIS Application - Feature request #1593
Oracle GeoRaster Plugin

2009-03-24 08:29 PM - ilucena -

Status:	Closed		
Priority:	Low		
Assignee:	ilucena -		
Category:	C++ Plugins		
Pull Request or Patch supplied:		**Resolution:**	fixed
Easy fix?:	No	**Copied to github as #:**	11653

Description

This plugin depends only on GDAL to compile.

It is basically a UI similar to the [[PostGIS]] UI. It manages the Oracle connection and it browses for [[GeoRaster]] objects on the server.

This plugin only load raster data but I did a little update on the previous plugin developed by Stephan Holl if he agree with that I we can also add vector support to that same plugin.

History

#1 - 2009-03-25 12:25 AM - sholl -

Please go ahead and built on top my code. It is currently unmaintained so I am happy if it will be reused and helpful for someone. Anyway, thanks for updating it to the recent QGIS-version.

#2 - 2009-04-28 10:21 AM - Paolo Cavallini

AFAIK the patch has been applied and it works. Reopen the ticket if this is not the case

#3 - 2009-04-28 10:21 AM - Paolo Cavallini

- Resolution set to fixed

- Status changed from Open to Closed
