<b>Description</b>		
<p>Hi developers~</p> <p>On the OSGeo4W Shell by windows version QGIS 2.14, 2.16, 2.18, the pip and easy_install command is not work, then I can't install additional Python modules.</p> <p>After execute OSGeo4W Shell with Administrator ortho, type 'pip' on command line. I can see error message like below.</p> <pre>  Fatal error in launcher: Unable to create process using ""</pre> <p>For repair pip error, I type command like below.</p> <pre>  python -m pip install --upgrade pip</pre> <p>After this command re type 'pip' command, then pip command work well.</p> <p>For repair easy_install, I type command like below.</p> <pre>  pip install --upgrade setuptools</pre> <p>In conclusion, please update pip and setuptools models in Windows QGIS Packag.</p>		

#### History
