

QGIS Application - Feature request #15957  
Import of dxf-data: Angle support for labels

2016-12-08 04:33 AM - Ger CO

Status:	Open	Resolution: Copied to github as #: 23873
Priority:	Normal	
Assignee:		
Category:	Unknown	
Pull Request or Patch supplied:	Yes	
Easy fix?:	No	
Description		
When trying to visualize text stored within dxf features there is currently not the option to visualize it a correct angles. When imported there is not a respective field for angles. The data is displayed corretly in CAD data.
