Description Looks like QGIS 2.99 does not provide the NTV2 based transformation AT_GIS_GRID for Austria (to ETRS89) out of the box. More about AT_GIS_GRID and Download of gsb-File: http://www.bev.gv.at/portal/page?_pageid=713,2157075&#38;_dad=portal&#38;_schema=PORTAL Would be good if it is integrated by default.
