

QGIS Plugin Site - Bug report #16007

"My Plugins" section show other plugins

2016-12-22 07:24 PM - Xavier Corredor Llano

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:		
Pull Request or Patch supplied:	Not supplied	
Description		
Hi,		
When I access to my list of plugins in http://plugins.qgis.org/plugins/my		
This show my plugin and other plugin that is not mine (see attached)		
Thanks

This was not an issue in the application code: the author of the other plugin (pluvia) made a mistake and set you and other 30 people as "owners" of his plugin.

In fact, the "My Plugin" view shows all the plugins in wich you are an author or an owner, in other words all the plugins you can edit.

okay, I got it! thanks for the explanation and fixed it

Regards
