Status:	Open	Resolution: Copied to github as #: 23999
Priority:	Normal	
Assignee:		
Category:	Unknown	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>In complex projects it is desirable to organize multiple attribute tables accross mutiple screens.</p> <p>If you save a QGIS project including the desired arrangement the application does not remember to open the tables at the positions previously set when you open the same project the next time.</p> <p>In fact, QGIS does not open them at all.</p>
