

QGIS Application - Feature request #16092

Option to display the feature count of the number of filtered results (instead of total)

2017-01-17 07:04 AM - Arjan Mossel

Status:	Open	Resolution: Copied to github as #: 24006
Priority:	Normal	
Assignee:		
Category:	Map Legend	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
It would be very useful to have an option to make the "Show Feature Count" on a layer take into account the filters applied to the layer (Provider Feature Filter).

Actually, it seems Shapefiles already use the filtered feature count, but not SpatiaLite/SQLite layers. I think the filtered count is the expected behavior, so that would make this a bug?
