

## QGIS Application - Bug report #16106

### Duplicate function for showing all labels

2017-01-24 02:09 AM - Paolo Cavallini

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Labelling	
<b>Affected QGIS version:</b>	master	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> invalid
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 24018
<b>Description</b>		
<p>I see that in QGIS 3 the function (Layer Properties &gt; Labels) "Show all labels etc." is present both in the "Rendering" tab and in the "Automatic placement settings" (top right). Apparently this is a duplication, better get rid of it.</p>		

#### History

##### #1 - 2017-01-24 01:44 PM - Nyal Dawson

Actually it's just a wording issue - one applies only to the current layer, the other applies to all labels from every layer. The phrases should be tweaked for clarity.

##### #2 - 2017-01-24 03:34 PM - Nyal Dawson

Actually I double checked and the wording is quite explicit - one is for the current layer, the other states "for all layers". Might be a bad translation?

##### #3 - 2017-01-24 11:37 PM - Paolo Cavallini

- Resolution set to invalid

- Status changed from Open to Closed

You are right, and the translation is correct. The window was just small enough to cover the relevant part.  
Sorry about the noise.
