

QGIS Application - Bug report #16116

QGIS crashes on some ArcGIS FeatureServer layers

2017-01-26 03:37 AM - Bartosz Perepeczo

Status:	Closed	
Priority:	High	
Assignee:		
Category:	Web Services clients/ArcGIS	
Affected QGIS version:	2.18.2	Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: worksforme
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 24028
Description		
<p>QGIS Desktop and QGIS Browser both load layers properly, but crash/freeze forever when there is viewport manipulation (pan/zoom etc) on those particular services:</p> <p>http://services6.arcgis.com/uWTLITypaM5QTKd2/ArcGIS/rest/services</p> <p>one, fairly simple and small, good to test would be:</p> <p>http://services6.arcgis.com/uWTLITypaM5QTKd2/ArcGIS/rest/services/nta_transport/FeatureServer/2</p> <p>As a note they work fine when viewed in ArcGIS online map browser.</p> <p>I believe there is something wrong with all of those, as other seem to work fine. For example this one works fine for me:</p> <p>http://services.arcgis.com/P3ePLMYs2RVChkXj/arcgis/rest/services/USA_Senate/FeatureServer</p>		

History

#1 - 2017-02-04 02:50 AM - Giovanni Manghi

- Priority changed from Normal to High

#2 - 2017-03-06 03:44 PM - Giovanni Manghi

- Category set to 148

#3 - 2017-04-30 06:42 PM - Giovanni Manghi

- Category changed from 148 to Web Services clients/ArcGIS

#4 - 2017-05-01 01:01 AM - Giovanni Manghi

- Easy fix? set to No

- Regression? set to No

#5 - 2017-05-03 02:31 PM - Giovanni Manghi

- Description updated

- Status changed from Open to Feedback

http://services6.arcgis.com/uWTLITypaM5QTKd2/ArcGIS/rest/services/nta_transport/FeatureServer/2

is no more available. Other layers on the same service are working just fine. Please try a more recent version (2.18.7) and report back. Thanks.
