

QGIS Application - Bug report #16156

Generic Help system: Ending a path with "/" does not well render the online documentation

2017-02-07 03:55 AM - Harrissou Santanna

Status:	Closed	
Priority:	Normal	
Assignee:	Alexander Bruy	
Category:	Unknown	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 24068
Description		
Go to Settings --> Options --> System --> Documentation Paths If instead of http://docs.qgis.org/2.14/en/docs/user_manual/, you write http://docs.qgis.org/2.14/en/docs/user_manual/ (note the slash at the end), the hyperlink created when hitting the help button is like http://docs.qgis.org/2.14/en/docs/user_manual/introduction/qgis_configuration.html#options which is a kind of plain text of the real page (no images rendered e.g.)

IMHO this should be fixed also on the server-side

#2 - 2017-02-07 04:03 AM - Harrissou Santanna

Do you mean I should also open an issue report in the Doc repo?

#3 - 2017-02-07 04:05 AM - Alexander Bruy

If this is a correct place for such issues, yes. User may type slash twice by mistake, so better is this is handled not only when help opened automatically from QGIS, but also when user opens it manually.

#4 - 2017-02-07 06:19 AM - Alexander Bruy

- Status changed from Open to Closed

Fixed in changeset commit:"9bd0d7a7bb1ebf528751f7b58201a4b86a590e7c".
