<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 24178
<b>Description</b>		
<p>I am migrating a plugin to QGIS3 and under Windows with the latest qgis-dev release(build 1182816)</p> <p>I get an error connecting to well know QgsVectorLayer signals:</p> <pre>vectorlayer.committedAttributesAdded.connect(self.attributes_added) or vectorlayer.committedFeaturesAdded.connect(self.features_added)</pre> <p>give:</p> <pre>TypeError: C++ type 'QList' is not supported as a signal argument type</pre> <p>asking in Qgis developer list Matthias Kuhn states that:</p> <p>"here on fedora it works</p> <pre>def test(layer, features):     print(layer, features)</pre> <pre>l.committedFeaturesAdded.connect(test)</pre> <p>So it seems to be a build issue, not a change in QGIS itself."</p>		

#### History

##### #1 - 2017-03-03 02:13 AM - Giovanni Manghi

- Target version set to Version 3.0
- Category set to Python plugins

##### #2 - 2017-05-01 01:01 AM - Giovanni Manghi

- Easy fix? set to No
- Regression? set to No

##### #3 - 2019-03-09 04:28 PM - Giovanni Manghi

- Status changed from Open to Feedback

Please check if this issue is still valid on QGIS 3.4.5 or 3.6.
