

QGIS Application - Bug report #16303

Map Composer - foregrounding

2017-03-07 02:37 AM - Magdalena Blank

Status:	Closed	
Priority:	High	
Assignee:		
Category:	Map Composer/Printing	
Affected QGIS version:	2.18.4	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: not reproducible
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 24213
Description		
<p>If I want to foreground e.g. the north arrow in a map composer, QGIS works fine. If I want to foreground a second element there is a Minidump error and QGIS crashes completely.</p>

- Status changed from Open to Feedback

Cannot replicate here with simple test projects. To trouble shoot this it would be needed more details and likely a sample project with data and the problematic layout. Thanks.

#2 - 2017-04-29 05:13 AM - Giovanni Manghi

- Resolution set to not reproducible
