QGIS Application - Bug report #1640
failed to build 1.0.1 due to translation files

2009-04-18 10:00 AM - Jean-Roc Morreale

Status:	Closed			
Priority:	Low			
Assignee:	nobody -			
Category:	Build/Install			
Affected QGIS version:		**Regression?:**	No	
Operating System:	Mandriva	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed	
Crashes QGIS or corrupts data:		**Copied to github as #:**	11700	

Description

Hi, Mandriva's packages for qgis 1.0.1 is not shipping several translations files due to errors at the building stage (see joined file for a cmake's log file). The packager is forced to rm -f i18n/qgis_mn.ts i18n/qgis_pt_BR.ts i18n/qgis_lv.ts i18n/qgis_it.ts i18n/qgis_lo.ts i18n/qgis_sk.ts to get the rpm done, which isn't my favorite solution as I do like a translated interface with my morning cup of coffee.

See there for packaging informations :

http://svn.mandriva.com/cgi-bin/viewvc.cgi/packages/cooker/qgis/current/

History

#1 - 2009-04-18 10:45 AM - Jürgen Fischer

- Resolution set to fixed

- Status changed from Open to Closed

this is fixed in in the version 1.0 branch.
